Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Understanding the dataset fields and deciding which views answer the analysis questions.	Reviewed the available project instructions and dataset fields, then selected relevant measures and dimensions for Tableau visualisations.
2	Arranging multiple worksheets clearly in one dashboard.	Built the dashboard iteratively, adjusted the layout and checked the views by scrolling through the dashboard.
3	Preparing a clear recorded demonstration.	Prepared a step-by-step narration, selected the MacBook microphone and checked the saved screen recording.

Accuracy note: No team meetings or team communication are claimed because this is an individual project.
